

# Arup Work Experience

**Your one week work experience programme will give you:**

An insight into the day-to-day lives of engineers, designers and consultants working within the built environment. Working closely with Arup members, students will be challenged to take on tasks and activities centred around a fictitious project brief, receiving first-hand knowledge from experts in their respective field.

## **The Project Brief - Civil Engineering**

Working with our local Civil, Structural & Architectural (CS&A) team, students will undertake a brief designed to explore a range of civil engineering principles, incorporating learning bursts from other disciplines so they can experience the collaborative nature of working on real life projects.

## **Team Working**

You'll be expected to work both independently and collaboratively in teams to complete tasks.

## **Intro to specialist areas**

Find out about:

Engineering

Design

Architecture \* (Learning Burst)

Project Management\* (Learning Burst)

**On your final day you will:**

**Present your ideas**

You'll prepare and deliver a presentation for the Arup staff who have been helping you throughout the week, detailing how you responded to the project brief.

**4<sup>th</sup> March – 8<sup>th</sup> March 2024**

**Whitehaven Foyer, Arup Office**
