

## Jobs That Use Tablets – Classroom Activity

*Objective:* Help students explore jobs that require tablets and understand how technology is used in different careers.

---

### Part 1: Match the Job to the Task

*Draw lines to match each job to the task they use a tablet for.*

- |                               |                                |
|-------------------------------|--------------------------------|
| 1. Teacher .....              | A. Drawing digital pictures    |
| 2. Nurse .....                | B. Planning flights            |
| 3. Photographer .....         | C. Managing patient records    |
| 4. Architect .....            | D. Creating social media posts |
| 5. Social Media Manager ..... | E. Editing photos              |
| 6. Pilot .....                | F. Designing buildings         |
- 

### Part 2: Discussion Questions

- Why do you think tablets are important for these jobs?
  - What jobs can you think of that might use tablets in the future?
- 

### Part 3: Creative Activity

*Draw or write about a job you would like to do that uses a tablet. What would you use the tablet for?*

---

*This activity helps students link technology skills to future careers, aligning with Skills Builder essential skills like Creativity, Aiming High, and Problem Solving.*

## Activity Title: *Jobs on the Move!*

### Objective:

To help children explore different jobs that need a van and develop essential skills like teamwork, creativity, and problem-solving.

### Introduction (10 minutes):

- Begin by showing pictures of different vans used in jobs (e.g., delivery van, plumber's van, ice cream van).
- Ask: *"What do you think these people do in their jobs?"*
- Briefly explain how vans help these workers carry tools, equipment, or items for their jobs.

## Main Activity: Van Job Challenge (30 minutes)

### Step 1: Match the Job (Teamwork, Listening and Speaking)

- Give each child a picture of a van.
- As a class, match the van to the correct job by listening to clues. For example: *"This van is full of packages to deliver to people's homes!"* (Delivery driver)
- Children work in pairs to discuss and choose the correct job.

OR

### Part 1: Match the Job to the Task

*Draw lines to match each job to the task they use a tablet for.*

1. Picture of a Delivery Van ..... Delivery Driver
2. Picture of an Ice Cream Van ..... Ice Cream Vendor
3. Picture of a Builder's Van ..... Builder
4. Picture of a Plumber's Van ..... Plumber
5. Picture of an Ambulance.....Paramedic
6. Picture of a Mobile Pet Grooming Van ... Pet Groomer

### Step 2: Pack the Van (Problem-Solving, Staying Positive)

**Instructions:** Circle the items you would pack in each van for the job.

1. **Delivery Driver's Van:** Packages, Tool Kit, Uniform, Letters, Books
2. **Builder's Van:** Bricks, Ice Cream, Toolbox, Safety Helmet, Paint
3. **Plumber's Van:** Wrench, Dog Shampoo, Pipes, Ladder, Cupcakes
4. **Ice Cream Van:** Ice Cream Cones, Pipe Wrench, Ice Lollies, Cash Box, Tools

### Step 3: Design a Van (Creativity, Aiming High)

- Each child designs their own van for a job of their choice.
  - They decorate their van with drawings and labels showing what tools or items they would need.
  - Share their vans with the class, explaining their chosen job.
- 

### Discussion (10 minutes):

- Ask children what new jobs they learned about.
  - What was your favourite job that needed a van? Why?
  - How did working in a team help you in this activity?
  - What was the most challenging part of packing the van?
-

## Worksheet 1: Match the Job

**Instructions:** Draw a line to match each toolbox with the correct job.

- Picture of a Toolbox with Wrenches ..... Mechanic
  - Picture of a Toolbox with Paint Brushes ..... Painter
  - Picture of a Toolbox with Hammers and Nails ..... Carpenter
  - Picture of a Toolbox with Plumbing Tools ..... Plumber
  - Picture of a Toolbox with Electrical Tools ..... Electrician
- 

## Worksheet 2: What's in the Toolbox?

**Instructions:** Circle the tools you would pack for each job.

1. **Mechanic's Toolbox:** Wrenches, Paint Rollers, Screwdrivers, Engine Oil, Pliers
  2. **Painter's Toolbox:** Paint Cans, Hammers, Brushes, Tape, Measuring Tape
  3. **Carpenter's Toolbox:** Nails, Saws, Brushes, Drill, Screwdriver
  4. **Plumber's Toolbox:** Pipes, Spanners, Tape Measure, Glue, Wrench
- 

## Worksheet 3: Design Your Own Toolbox

**Instructions:** Draw and decorate your own toolbox! Choose a job and include the tools you need.

- My toolbox is for a: \_\_\_\_\_
- I will need these tools in my toolbox: \_\_\_\_\_

*Draw your toolbox here:* [Large blank box for drawing]

---

## Discussion Questions for Teachers:

- What was your favourite job that needed a toolbox? Why?
- How did working in a team help you in this activity?
- What was the most challenging part of choosing the right tools?

These worksheets highlight jobs that need a toolbox and encourage essential skills like teamwork, problem-solving, and creativity!

## Essential Skills Developed:

- **Listening:** Paying attention to job descriptions and clues.
- **Speaking:** Sharing ideas about jobs and tools.
- **Teamwork:** Working with others to solve challenges.
- **Problem-Solving:** Choosing the right items for each van.
- **Creativity:** Designing and decorating a van for a specific job.
- **Staying Positive:** Encouraging each other and trying again if they get stuck.

---

This activity is fun, hands-on, and helps young children explore real-world jobs while building essential skills.
